Vol. 34, No. 23.

CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA.

FRIDAY, DECEMBER 9, 1927

Figures compiled by the California Rice Growers' Association show Butte County raised the largest number of acres of rice in 1927 with a total of 674,015 bags. Colusa county came second with 555,000 bags; Glenn county, 508,000; Yuba county, 545,000; Yolo county, 494,000. The San Joaquin Valley contributed 173,000 bags of rice, against the Sacramento Valley's 2,829,015. The figures do not include rice not threshed.

That the food habits of the Japanese is changing is evidenced by the number of requests which have been received in recent months by the State department of agriculture from importing firms in Japan calling for information on various food products produced in this country and asking for contracts with shippers. Recently the fancy of the Japanese importers has turned towards meat products and large quantities of pigeons and turkeys are being called for.

Ernest L. Adams, president of the California Rice Growers' Association, stated to the members of the Rotary Club of Chico last week that rains have delayed harvesting, threshing and cutting of rice since November 6th, but that although the delay entailed expense the damage would not necessarily be very considerable. "When the rains came," he said, "we had 3,500,000 bags of rice in the warehouses in California and more than 1,000,000 bags left in the field, of which 30 per cent was estimated to be uncut. If this crop had been all harvested it would have been the largest crop of rice ever produced in California."

The Rice Growers' Association of California of Sacramento, last week estimated that more than 1,000,000 bags of the 1927 crop of rice is still unthreshed, and that of this total 30 per cent still remains uncut. That part of the crop already threshed is estimated by the association to exceed 3,000,000 bags. Threshing of the crop was halted early in November by rains, but the association now predicts that if present weather conditions continue threshing operation can be resumed, but, under the most favorable conditions, that part of the crop still unharvested will be damaged considerably.

The Imperial Valley, "Winter Garden of America," will go on display in Brawley December 7 to 11 inclusive, when the annual Imperial Valley Mid-Winter Fair holds forth. Plans for the fair are practically completed and indications are that exhibits and features will exceed anything ever before attempted in the valley, according to Harry E. Nevin, secretary.

All previous records for the price of early oranges were believed to have been broken, when Southern California's first carload of navel of the 1927 season was sold for \$7 a box, f.o.b. Highland, November 12. The oranges tested one and two-tenths higher than the required sugar content and the color was unusually good. They had been on the trees longer than last year. The first shipment in 1926 went east around the first of November.

To study the methods that have brought twice the percentage of dairy cows in California into testing associations than has been secured in any other State, two specialists of the dairy bureau of the United States Department of Agriculture are visiting the Golden State. They are J. B. Parker, in charge of testing work for the United States Department of Agriculture, Washington, D. C., and J. E. Dorman, in charge of the work in the Pacific Coast States, with offices in Salt Lake City. California ranks second in the total number of cows on test among the States, being only about 5000 under Wisconsin, which has nearly four times as many cows.

Perhaps the most serious pest that the growers of lettuce have to contend with is the cutworm. The most damage is done while the plants are small, all being usually cut off at the ground level. The use of poison bran mash bait has given the best results thus far, according to experts with the agricultural extension service. The following formula is recommended: Paris Green (or white arsenic) one pound; molasses (cheap blackstrap) two quarts; water, four gallons; and wheat bran, twenty-five pounds.

Golden State News of Interest to All

From Canada, Mexico, Hawaii and various parts of the United States educators will meet in Los Angeles December 17th-20th for the second annual convention of the American Vocational Association.

Announcement from Sacramento that the State Department of Public Works has ordered a survey to determine on a plan for breaking the "bottle-neck" at Pinole on the main highway between the San Francisco bay region and Sacramento is welcomed by motorists generally. H. J. Brunner, chairman of the highways committee of the California State Automobile Association, declared last week that the project has the unqualified endorsement of the motorists' organization.

Indicating the surprising proportion of fires which are caused by the carelessness of man, and especially the man who smokes, Fred G. Stevenot, State director of natural resources, revealed last week that 655 out of the 1,864 fires in California this year, outside national forests, were started by burning tobacco. Disproving the popular theory that most forest fires are caused by lightning, Stevenot's figures showed that a very small percentage originated in this way.

The eighteen national forests of the California district, comprising California and southwestern Nevada, cover a total net area of 19,144,221 acres, or about one-fifth of the land area of the State. Of this total, 18,593,807 acres are within the boundaries of California, 541,691 acres in Nevada, and 8,723 acres in Southern Oregon. The resources of these forests is conservatively estimated to exceed \$300,000,000 in value. The receipts for the last fiscal year from the forests of the California district totaled \$1,162,581, of which amount 25 per cent was returned to the State for distribution to counties in which the Federal forests are located, for schools and roads.

Agreeing with the old poet that "stone walls do not necessarily make a prison make" Bert B. Meek, former member of the board of prison directors of the department of public works, announced last week that the Folsom mutiny on Thanksgiving Day would not stop the prison road camp work but increase it. Considering that prisoners are safer out at work in the "great open spaces" than cooped up in large idle groups, Meek is continuing his plans to put some 800 men out on the prison road camps in spite of the prison riot. There are now about 500 prisoners at work on highway construction, the state director of public work declared, and in the spring this number will be increased to approximately 1300 men.

Automobile accidents throughout California will cause 1800 deaths in the State and the individual injury figure probably will exceed 18,000 during 1927 if the present death and injury toll in the statistics of the Travelers' Insurance Company of Hartford, Ct., is maintained until December 31. The amazing statistics of the insurance company made public last week are based on the ratio of one fatality to every 1000 automobiles. To date that figure has been maintained and upon the same ratio the company's statisticians predict that 180,000 persons will have been injured before the new year.

Congressman Charles F. Curry has notified members of the State Reclamation Board that the hearing upon the San Joaquin flood control situation would be held before the House flood control committee in Washington on December 12 and 13, instead of December 8 as previously anticipated. In a telegram to C. E. Jarvis, president of the board, the congressman expressed gratification of the personnel of the committee which will represent the reclamation board at the hearings.

Alameda County Gas Company has applied to the Railroad Commission for a certificate of public convenience and necessity to exercise a franchise granted by the Board of Supervisors of Alameda county to operate a gas utility in Mt. Eden, Alvarado, Centerville, Newark, Niles, Irvington, Warm Springs, Mission San Jose, Decoto, and contiguous territory in Alameda county. Applicant also requests \$255,000 of first mortgage six per cent bonds to finance the project.

California has fifteen maternity homes conducted exclusively for Japanese, a report issued by the department of public health last week states. These are numbered among 352 maternity homes and hospitals which have been inspected and licensed by the department under provisions of the law which authorizes the issuance of licenses to institutions that comply with the law.

CONSOLIDATED VOTES TO INVADE SOUTH

The regular meeting of Santa Clara County Consolidated, held at the Hotel Lyndon, Los Gatos, at 8 p. m., Tuesday, was presided over by Max Crow, vice-president of the organization in the absence of Wendell Thomas, who is in the Middle West on business.

In making W. F. Powers' report on Prune Week, Russell Pettit of the San Jose Chamber of Commerce reported that 18,000 five-pound boxes had been placed with merchants and that, although complete reports were not in as yet, less than 500 boxes remained unsold in San Jose. Gilroy reported sales of 800 boxes, and other communities stated that they would need more boxes if they were available.

The Santa Clara County exhibit at the Pacific Foreign Trade and Travel Exposition in the Civic Auditorium, San Francisco, November 11-20, was reported upon by Russell Pettit, who was in charge. He stated that nearly 150,000 individuals attended the exposition, that there was a 100 per cent representation of all the canners and packers of the county, that the exhibit was in an especially fine location in the auditorium and that the good advertising accomplished for the county was a fact as evidenced by the many compliments received.

Ray Smith reported that the stuffed prunes sent to the convention of the National Association of Commercial Secretaries, held in Columbus, Ohio, last month, were most enthusiastically received by the delegates and that good advertising was certainly a definite result.

Acting favorably on the advice of Ellis H. Woolley of Foster and Kleiser of San Francisco, Consolidated voted to recommend to the Board of Supervisors that money from the advertising fund be used in outdoor advertising in Southern California.

The next meeting of Consolidated will be held at Palo Alto, January 10.

VETS URGED TO APPLY AT ONCE FOR ADJUSTING

The time is rapidly nearing when applications for World War Veterans to make applications for adjusted compensation. Applications must be made before January 1, 1928, according to E. H. Melvin, Los Gatos Post No. 158, American service officer.

Those eligible are all honorably discharged veterans of the World War, and widows, children and their guardians, mothers or fathers of deceased veterans who depended upon them for support at the time of their death, or have become dependant on outside support.

"If you are eligible for adjustment and do not make your application before January 1," Melvin said, "your opportunity to secure the benefits of this economic aid will vanish forever. Congress has set this date limit, and it can not be extended by any federal official."

"Do not wait any longer, act today, get an application form, execute and mail it to Washington in the envelope which accompanies the blank. There is no red tape incident to getting adjusted compensation. You can obtain the application form and the necessary aid from the Los Gatos post officer."

Honored By Coolidge

Among the nominations sent to the Senate Tuesday, was that of Robert E. Olds of Minnesota, to be Under Secretary of State. Mr. Olds is the son of Mrs. Lillian Olds, former resident of Campbell and who visits here occasionally. Mr. Olds did note-worthy work in Europe in administering Red Cross funds during the World War and reconstruction period there after.

REBEKAHS HOLD ELECTION

Ada Rebekah held initiation of candidates at its regular session Tuesday evening, with a large attendance and a number of visitors. Following the degree work, a ravioli dinner was served as prepared by a group of expert cooks, under the direction of Mrs. Eva Bachman. At the regular election held that evening officers were elected as follows:

Noble Grand Helen Johnson
Rec. Secty. Lillian Ohlen
Fin. Secty. Grace Coupland
Treasurer Ellen Snow
Trustee Malvina Snow
Plans are being made to hold the annual Christmas party.

THREE GAMES SAT'DAY AT CAMPBELL GYM

This Saturday night, December 10, the people of Campbell and vicinity will have a chance to see three fast basketball games at the Campbell High School pavilion.

The first game will be between the Campbell High School's crack 130's and Santa Clara's 130-pound team. Without doubt, Campbell's 130's this year are the fastest light weight team of the class that has ever represented the school. Coach Noddin is rounding his light weights into form just as fast as can for the P. A. L. games start the first week after Christmas vacation.

The second game is between the C. U. H. S. unlimited team and the Los Gatos Wild Cats. Coach Noddin's heavyweights are playing bang up basketball so far this season and their game with the Los Gatos Wild Cats should prove a fast encounter. Los Gatos always brings down a fast team.

The last game is between the newly organized Campbell Alumni 145's and the Santa Clara Alumni 145's. These two teams have met before and the red and white alumni team won by a score of 20 to 11.

Don't forget now, these games will be played this Saturday night at the Campbell Union High School. The first game will start promptly at 7:30 p. m. Doors open at 7:00 p. m. Admission 25 cents and 10 cents.

GRIZZLE-FALES

Miss Thelma E. Grizzle, who has visited her cousin, Miss Winnie Grizzle, at different times, was married Monday to Joseph E. Fales.

The ceremony was performed by the Rev. Richardson at the First M. E. Church, San Jose.

Following a wedding trip south and into Mexico, they will return to Klamath Falls, the home of both young people and where the groom is in business.

Club Busy at Hall

The Moreland Good Will Club met November 30 at their hall and put in a busy day clearing up and cleaning in readiness for finishing the inside of the building. Mrs. Jane Higbie met with them at noon and gave them suggestions and advice as to curtains and furnishings.

The next meeting will be on Wednesday, December 14, with Miss L. Cassidy of Phelps avenue and will be in keeping with the Christmas season.

Miss Helen Jones, niece of Mrs. Maud Marston, was in an auto accident in San Jose, when the car in which she was riding collided with a street car. Miss Jones escaped with minor bruises, but the young man who was driving was more seriously hurt, but is improving.

KIWANIAN OFFICERS ELECTED FOR YEAR

Election day was really celebrated by Campbell Kiwanis Club Tuesday, when the "builders" assembled at a most delicious turkey dinner with all the "trimmings" the artistic production of Mrs. Edith Turner, assisted by Miss Verna Cutting.

The large table was adorned with large red Christmas candles set in patent candle holders made by Louis Shelley. To add to the cheer a real fire was roaring in the fireplace. A vote of appreciation was given Mrs. Turner, who has been the club's able caterer for the past year.

Reports of the chairmen of the committees showed the past year to have been a very active and beneficial one. Of the 51 programs there were 45 regular and six special features.

The club turned some \$300 to the Chamber of Commerce treasury besides giving very substantial financial aid to the Campfire Girls and Boy Scouts.

President T. A. Cutting appointed Hal Morton, Ralph Hyde and Walt Merrill to have charge of the annual Christmas jinks, which will be held the evening of December 14, next week.

The newly elected officers are: President Walt Merrill
Vice Pres. J. Ed Weisendanger
Trustee T. A. Cutting
Treasurer C. B. Field
Directors — Geo. Burrow, Nic Hedegard, Ralph Hyde, D. Harold Cramer, Herold Morton, Mark Purmort, Louis Shelley.

J. P. Cuenin, rod and gun writer of the Examiner, is the speaker Tuesday noon, and our "mighty hunter" Ed Weisendanger will preside.

CAMPBELL SOC.ETY TO SING CAROLS

The Campbell Choral Society under the able supervision of Mr. Benj. Edwards, is preparing for a big carol sing at the Roosevelt tree on the evening of December 22. This is not a new idea, but the old custom is to be revived by this new organization and it is expected that there will be about 50 voices in the chorus.

The public is cordially invited to attend the carol sing and it is hoped the weather may be mild enough to permit of a large attendance.

Grammar Notes

The Christmas seal sale in the grammar school amounted to \$167. Seventy five per cent of this is to be used in this district. A contest to see which room would sell the most Christmas seals was won by Miss Nielsen's class.

All of the rooms are practicing for the Christmas program, which is to be given on Friday, December 16, starting at one o'clock. The P. T. A. has full charge of the tree in the assembly.

The basketball team played the Los Gatos team in the high school gym last week with a score of 11 to 5 in Campbell's favor. Geo. Shank, the captain, was the high point man of the game.

Traffic Officer William Emig of San Jose, gave a very forceful talk to the school on Tuesday.

Mrs. Sourisseau's room won the two and half dollar prize for securing the largest per cent of members.

Miss Steele's room, the kindergarten, won the P. T. A. attendance prize for this month.

Arthur Preston, who had been living in Oregon, is here to spend the winter with Mrs. Eldora Preston.

If you would outshine your neighbors acquire a good reputation and then keep it polished.

CATHOLIC CLUB TO STAGE PLAY

The Campbell Catholic Club will present their second annual show on December 18. The cast has been rehearsing regularly twice a week and a very decided improvement has been noticed. The play is under the direction of J. Homen Jr., and he has a very promising future as a director.

"Too Much of a Good Thing," is a very interesting play. Laughs a plenty are in order, especially when George Mattos, as Tom Perkins, returns home and finds a strange man in the house. J. Gomes takes the part of Fred Schuyler, the stranger, who unfortunately is in love with Jennie Cowper, Tom's cousin. The mystery is unravelled and turns out to a humorous ending. Miss Irene Gilson takes the part of Mrs. Perkins and puts some of her charming personality into her part with many laughs for the audience.

Mr. Homen plays the part of Mr. Perkins, Ida Turlacto, whose laugh can be recognized anywhere, takes the part of Eunice Bowles. The rest of the cast are very good also, and deserve a lot of credit toward making a success of the play. The rest of the cast are: Marie Gilson, Hattie Perkins; Miss Evernia Le Fevre, Nellie Perkins, and Miss Elva Mattos Polly (maid).

The play will be given on December 18, at the grammar school auditorium, at 2:30 p. m. Tickets are now on sale from any member of the club.

HOLLAND LIFE REVIEWED AT CLUB

Social life of Holland, was the subject for consideration at Monday's meeting of the Country Woman's Club, with Mrs. C. H. Whitman as chairman.

Her treatment of the subject was exceptionally good, with sufficient humor, intermingled to add zest to the subject.

The ground was thoroughly covered, giving a very interesting idea of the homes, styles of dress, travel, social customs and daily living.

In response to the annual request for aid in supplying Christmas cheer for the disabled veterans at Palo Alto Hospital, the club voted \$10 to be sent the district federation committee in charge of the work.

At the last meeting the club also voted to go on record as opposing the use of the old style steel trap for trapping fur bearing animals.

It was also decided to purchase material for new thin curtains for the community rooms as those now in use are badly weather stained and sun burned.

Performers Drill for Coming Show

Work is progressing very satisfactorily on the entertainment to be presented the evening of Jan. 13, at the Campbell grammar school auditorium. The Campfire Girls will give the operetta, "The Feast of the Red Corn," under the direction of Miss Marian Jenkins, guardian of the Cherokee group and Miss Kittie Johnson, assistant guardian.

The Boy Scouts, assisted by some of the girls are preparing "The Midnight Tryst," written and directed by Mr. T. A. Cutting.

The scenery will be from the brush of Francis H. Cutting, who was injured some three weeks ago while at work upon it.

There will be other numbers which will add variety and additional pleasure to the program.

Campbell Choral rehearsal was postponed to this (Friday) night to permit members to attend the "Beggar's Opera" last evening.

tractor wants work in or around
Campbell. Building, built in
work in modern homes especial-
ly. Address, Sidney Ward, Los
Gatos; care of Harry Ryan,
Call of Wild Ranch.

CARD OF THANKS

We do sincerely thank our dear
friends and neighbors who so
kindly and steadfastly stayed by
us in the sickness and death of our
wife and mother and also for the
floral offerings.

A. J. Jones.
Mrs. Lolita Brown.

Mr. and Mrs. Sol Osborn of Ther-
malito, near Oroville, Butte county,
have an apple tree growing in their
yard which is in full bloom, and is
also breaking forth in new green
leaves. Several limbs of the blossoms
and new leaves are being exhibited at
the offices of County Horticultural
Commissioner C. H. Kinsley, at Oro-
ville.

A decrease of nearly 3,000,000 boxes
in this year's apple production in Cal-
ifornia as compared with that of 1926
is seen by the State department of
agriculture, with shipments now well
under way. The department predicts a
yield of 7,644,000 boxes, against 10-
350,000 boxes last year. The crop is
of excellent quality however.

The farmers in Fall River, Burney
and Cayton valleys, Shasta county,
have finished digging their potatoes.
Hundreds of sacks of different vari-
eties have been raised during the Sum-
mer. The farmers have found ready
sale for their crop, most of them be-
ing shipped to Redding, McCloud and
Pondosa.

At the end of a season's effort, J.
F. Soule of Paradise, Butte county, re-
ports the destruction of 18,970 cod-
ling moths by the simple method of
banding his trees early in June and
keeping them banded until well into
the Fall. He goes over his orchard
once a week and removes the worms
that have hidden beneath the bands,
where, if left alone, they enter the
chrysalis stage, and destroys them.
This year he kept accurate count of
those destroyed.

Harmonica's at Smith's

Source of America's Greatness

You can scarcely turn a page in the early chap-
ters of American History without seeing a pic-
ture of wood in some form.

Wood built the stockades for refuge against
hostile Indians.

Corn cribs and barns, both built of wood, pro-
tected crops and live stock. Within the stout
walls of the log cabin, the Colonists and their
children shared each other's joys and sorrows.
They sat in wood chairs. They ate at wood tables.
They slept in wood beds.

Wood built the schools where on benches of
wood and behind wood desks, studied and day-
dreamed the future signers of the Declaration of
Independence.

In meeting houses, built of wood, the Pilgrim
fathers sang hymns and made their simple offer-
ings to God.

And it was in town halls, constructed entirely
of wood, that the very foundations of our Govern-
ment were established.

Not forgetting the all-important part that wood
played in the life of trade and commerce.

The very first cargo sent back to the old land
from Virginia was cedar logs. Pine was a princi-
pal export of the New England colonies, and
later was the backbone of frontier trade.

Wood provided the ships and canal boats of the
early days. It built the docks and wharves on
which were loaded and unloaded the products
of the farm, the plantation and the sea. It built,
too, the factories which soon began to spring up
one after the other in scores of fast-growing
towns and cities along the Atlantic seaboard.

Turn on through the pages of history, and you
will find wood again pioneering the paths of prog-
ress; this time clear across the continent.

MORE THAN GOLD

The gold seekers and settlers ever advancing
westward and opening up for posterity a vast
new empire, made their journey in covered wag-
ons built of wood. After them came the wood
stagecoach and the railroad, supported on ties of
wood. And then the telegraph and the telephone
—both striding ever forward on poles of wood.

Picture, too, the long trains of freight cars;
cars bringing from the forest to the prairie, huge
shipments of lumber that quickly housed the in-
pouring millions in the most economical and com-
fortable and healthful of buildings.

And down the rivers to mill and yard floated
vast rafts of logs. Right to the far edge of the for-
est lands the logger and lumberman pioneered
with trapper and settler. Always the first mill
was a lumber mill. Lumber was the pioneer in-
dustry, carpentry the pioneer craft.

The natural wealth of the magnificent forests
was largely converted into buildings and other
property; thereby were multitudes employed,
trade stimulated, and fertile land cleared for
thriving farms.

Countless industries, based on wood, sprang up
over the land to balance agriculture and animal
husbandry. The real El Dorado of America was
not in its gold coasts, but in its glorious forests.
All the gold that has come out of America since
Cortez and Pizarro looted the Aztecs and Incas
is not equal in value to the forest products and
their manufactures in a single year.

Rose Planting Time

Now is the time to think about planting roses
if you have not thought about it already. There
is always room in the garden for one more rose,
and there are so many new roses coming out
yearly that making the choice is more difficult
than finding the spot for planting. If you don't
happen to have the padre rose in your collection
the writer can think of none of the newer vari-
eties more satisfactory. It is a free bloomer, long
stems and quite upright and beautiful coloring.
The padre is merely a suggestion for we are
sure there are other good varieties. Remember
s you beautify your homethat when you plant rose
and when you beautify your home you add dis-
tinction and color to your community.

An unfrocked pastor in Denmark has been
awarded against the Methodist-Episcopal Church
because of the bishop's action in demoting him.

A road sign in Palestine reads: "You are enter-
ing Nazareth. Speed limit fifteen miles per
hour."

So valuable was the Mexican cacao bean up to
fifty years ago that the entire populace of Mexico
used it as money. One bean passed as one cent.

SAVING ON SMALL WAGES

Will power, as much as
earning ability, is a factor
in the universal ambition to
win financial success. Some
men are unable to save on
ten thousand a year, and
yet other men with far smal-
ler incomes manage to save
substantially. Little sacri-
fices may be necessary, but
the financial peace of mind
that comes from having
followed a systematic sav-
ings plan is worth the
effort. Savings accounts in
the American Trust Com-
pany earn four per cent
interest compounded semi-
annually.

M. E. CHURCH NOTES W. C. Robins, Minister

Sunday, December 11.—Special
Christmas topics with the object
of creating an atmosphere of
Christmas love will be presented
at every service this month.

At the 11:00 service, the topic
will be "B. C. vs. A. D.," or What
changed the calendar. Mr. A. Gar-
field Phillips, "The Good Shep-
ard," by Van de Water. Duett,
Mr. and Mrs. Phillips, "At the
Place of Prayer," by Ackley.

At 7:30—Topic, "The Children
of All Nations." Fifty beautiful
pictures, illustrating Christmas, as
the Children's Festival.

Come and bring your children.
Stocking filling program, this for
both church and Sunday School.
Friday the 23rd—Sunday School
program and tree. All parents and
friends invited.

The annual meeting of the Cal-
ifornia Baby Chick Association will be
held in San Jose on December 8, 9 and
10, according to an announcement just
made by F. M. Molby, of Bell, secre-
tary to the organization. An interest-
ing and instructive program has been
arranged, and a large attendance is
anticipated.

apolis, Minn.

Town Tales Tersely Told

Christmas Cards at Smith's

Mr. and Mrs. C. B. Miracle drove to Pacific Grove Wednesday for a visit with friends.

Mrs. R. Y. Maxon of Winchester road went to San Francisco Sunday for a few days visit.

Mrs. Frank Mendel and children were down from Palo Alto the first of the week, returning yesterday.

The W. C. T. U. will meet with Mrs. Lulu M. Steele, 398 West Campbell avenue, Wednesday, December 14, at 2:30 p. m.

Henry M. Oliver of Los Angeles arrived Tuesday to visit his sister, Mrs. N. Claud Grizzle. Mr. Oliver is a geology and petroleum engineer.

Mrs. Gilbert R. Newcomb was operated upon for appendicitis Monday at Santa Cruz. She is reported getting along very satisfactorily.

The Misses Daisy and Maude Pannell are visiting in Los Angeles and other Southern points having left for the City of Angeles last Sunday.

Christmas boxes for the soldiers are here and any wishing to help in the filling can get boxes from Mrs. F. S. Newcomb, 295 Campbell avenue.

Miss Josephine Albertson and Miss Ida Johnson, artists of the Carmel colony arrived Wednesday and are spending the remainder of the week with Mrs. J. J. Pardee.

Mrs. Bertha Helyer, who had enjoyed several weeks of the delights of the Hawaiian Islands, returned last week. She was met in San Francisco by her daughter, Mrs. H. W. Morton.

Miss Mary Maxon underwent an operation upon her shoulder at the University Hospital in San Francisco Tuesday. Mary is very popular with old and young, who all hope to see her well again soon.

Campbell merchants still have a quantity of the advertising prune boxes, which they would be glad to dispose of. Reports from recipients in Eastern states all express praise for the quality of the fruit.

Wednesday, Dec. 14, at 6:30 p. m., will be our Fellowship supper night, and a special invitation will be given to all the parents of our Scouts and Wolf Cubs to come. Parents only this time. The boys will soon have their high times.

Safety Program Given By P.T.A.

Hark! Hark! the dogs do bark
When jay walkers come to town

They pass the signs and block the lines,

By autos they're knocked down.
So spoke Lieutenant William J. Emig of the San Jose Traffic Squad to the children of the Campbell Grammar School on Tuesday afternoon.

On the invitation of the Campbell P.T.A., William Emig addressed the school along the lines of his work. Never had a speaker a more attentive audience and seldom do we hope to hear an address so instructive and interesting. The youngsters laughed at the rhymes and the tears came all unashamed at the telling of the plight of the poor little kiddies left fatherless all on account of the lack of a bicycle light. The speech had the interest of a wonderful story and the additional thrill and "kick" of being absolute facts told by one in a position to know.

Children are natural doubters, but there was no doubt on Tuesday. The speech went over and who can calculate the benefits?

It was Safety Day with the P. T. A. and the balance of their program was along the same lines. Other features embraced a Health recitation by pupils of Mrs. Savaker's class, a health picture on the screen and an address by Mrs. Graham of Saratoga.

The members enjoyed their own refreshments immensely, but were probably even more pleased at the excited delight of the visiting children of pre-school age when they sat down to their own special spread arranged by Mrs. Wm. Blunt.

Christmas Candles at Smith's

Charles Berry, who had been very ill at the home of his son, Millard, at Redwood City, was brought home Sunday, and is convalescing, although slowly. He is gradually getting a little more extended diet list. Campbell avenue doesn't seem natural without "Charlie" going and coming upon it.

Mrs. Irene Miracle Willers, who had been visiting relatives here, was called to her home in Seattle, Monday, by a telegram telling of the serious injury of her husband in an auto accident.

Mrs. Cynthia Palmer is very ill at the home of her son, W. W. Palmer on Page street. A daughter, Mrs. C. J. MacDonald, arrived last week to remain with them for some time.

Among Tuesday's applicants, who declared their intentions to marry, were Ida Talburt and Herbert Spears, both of Campbell.

MRS. A. J. JONES AT REST

Mrs. A. J. Jones, who had been ill for several weeks following a paralytic stroke passed away at the family home on Railroad avenue last Thursday evening, December 1.

Malinda Stice was born at Jacksonville, Ill., November 6, 1841, and resided there with her parents until she was married at the age of 25 to Dr. Reynolds, who died in 1910.

February 21, 1919, she was united in marriage with A. J. Jones at Pawnee City, Nebr.

The same year they came to California, where they have resided continuously.

She leaves to mourn her loss, her husband, two step daughters, Mrs. Jennie Deakin of Decatur, Ill., Mrs. Leolla Brown, Hay Springs, Nebr., four step sons, Harry and Mark Jones of Bladen, Nebr., Carl Jones, Decatur, Ill., and Charles Jones, of Levinston, Mont., two nephews, Burt Stice, Los Angeles, and Allen Stice of Chicago and a niece, Mrs. McKay of Chicago.

Funeral services were held from the house on Saturday and the body laid away in Los Gatos Cemetery. The following members of the Masonic order acted as pall bearers, R. G. Archibald, C. B. Field, Dr. W. I. Merrill, L. S. Miller, T. A. Robinson and Wm. Skiff.

Indicative of the vast amount of financial activity in California during the past year, the State railroad commission showed last week, in its annual report to Governor Young, that it authorized the issue of \$314,642,213 during the fiscal period closing June 30th, last. This compares with \$262,463 issued during the previous year. The operating revenues of all utilities for the year were reported at a total of \$1,001,170,242, an increase of \$45,940,167 over the preceding period.

While general construction of the first unit of the new \$250,000 Tulare County Hospital, erected near the city limits of Tulare, is practically completed, it is not expected that the institution will be open for general use until about February, according to the County Board of Supervisors. This first unit has been erected at a cost of about \$100,000. A large portion of the sixteen-acre site on which the hospital is erected was donated to the county by public-spirited Tulare citizens.

With first fruits of organized motorists' fight for elimination of the war tax on automobile realized in the plan for cutting the levy in half, motorists of the West are being urged by the California State Automobile Association to support the nation-wide campaign of the American Automobile Association for complete repeal of the three per cent Federal levy on the factory price of new passenger cars.

A total of \$11,701,400.18 for repair and construction of state and county highways was made available last week by State Controller Ray L. Riley. Of this amount \$1,558,898.56 is income under the gasoline tax increase of 1 cent a gallon voted by the Legislature this year to finance new road building. Controller Riley said that this sum, collected since July 29, may be used by the State Highway Commission immediately.

William H. Crocker, Republican national committeeman from California, said last week in New York that he is confident San Francisco will be selected for the 1928 Republican National Convention. Detroit now is the only other city with a chance in the race, he said. Crocker asserted he has obtained pledges from more than half the national committeemen to support San Francisco for the convention.

With seven new wells spudded in last week in Kern county oil fields, the total for the year now is 284. Four of the new wells are first wells for the companies in the various fields.

Forty per cent of all tourists coming into California remain as residents and motor tourist parties journeying back and forth across the state leave a trail of cash in the communities they visit which totals a vast sum annually. These facts were cited last week by the Highway Bureau of the California State Automobile Association to stress the importance to every channel of business of the endeavors being made to promote transcontinental tourist travel over the Victory Highway to Northern and Central California.

Since harvest of oranges started two weeks ago, a total of sixty-seven carloads have been sent from Oroville. Shipments have averaged five and six cars a day, and it is the prediction of fruit and railroad men that car consignments will average ten a day before the season is completed. Shipments are made from Thermalito, Palermo and Oroville. Several cars have gone to San Francisco, and from there were exported. The majority, however, were sent to eastern markets and are bringing exceptionally good prices.

Christmas Candles at Smith's

G. Turturici Died Suddenly Saturday

Gaetano Turturici, who lived on the Winchester road, southwest of Campbell and owned the Big Boy Service Station, died suddenly Saturday morning from a heart attack.

Deceased was a native of Italy and but 42 years of age.

He is survived by his wife, Maria Turturici, and seven children, Ignazio, Battista, Toney, Gaetano, Joseph, Lena and Angiolina.

Funeral services were held Tuesday morning at the Sacred Heart Church, San Jose and interment was at Calvary Cemetery.

Approaches Smoothed To Dumbarton Bridge

The cry of the motorist for better approaches to the Dumbarton Bridge has been answered by the bridge officials with the paving and opening of the San Lorenzo-Alvarado highway, and with the smoothing out of the five miles of Dumbarton Bridge approaches. A three-mile layer of oiled macadam has been laid on the approaches.

According to H. N. Baker, secretary of the Dumbarton Bridge Corporation, all of the Dumbarton approaches are now better defined, and road conditions are greatly improved. Baker reports that the November travel, despite the rainfall during the early part of the month, ran slightly better than the October business. The October business showed a 21 per cent increase over September.

Chicago's Bright Street

Lights have been installed on State street, Chicago, that make it the world's brightest business thoroughfare. Two 2,000-watt lamps are used on two-light standards spaced 90 feet apart and opposite. A lighting value of about 90,000 lumens per standard is produced, the light falling on the street surface being over twice as much per lineal foot as on that of the most intensively lighted street previously equipped.

Berlin's Rotor Windmill

Principles of Flettner's rotor ship, which sailed the Atlantic last year, have been applied to a windmill in Berlin. The rotor, mounted on a tower in place of a windmill, spins around merrily and pumps the water. The complete apparatus looks like a huge spoon mounted on the end of a stick stuck into the ground.

Cats Nurse Young Foxes

Canadian fox ranches use tabby cats to nurse the young foxes until they are old enough to live on their standard diet of fruit, meat and vegetables, according to Capper's Weekly. Mother foxes, it seems, are too nervous to nurse their own cubs. They don't relish being as close to civilization as a fox ranch brings them, however lonesomely it is kept.

First Prohibition State?

Maine was the first prohibition state. In 1851 she adopted an anti-liquor law and later adopted a prohibition amendment to her constitution. When Georgia was founded in 1732 the trustees prohibited the sale of intoxicating liquors. In 1752, when Georgia became a crown colony, Jamaica rum was introduced.

CONG'L. CHURCH NOTES

J. R. Bennett, Preacher

Next Sunday will be the day of opportunity for all who feel any joy or responsibility in the progressive work of the church.

Should any friend not have received a copy of our budget for 1928, Mr. T. A. Cutting will gladly give to each a copy.

So as to demonstrate the real live factors which are stirring in our midst; factors, indicative of future possibilities, Mr. Bennett has arranged that Sunday morning be a young people's service at which all Scouts and Wolf Cubs and Senior Sunday School classes will gather. By this method he feels of bringing joy into the worship of those who are older. The talks will be especially for young life.

At 7:30, a stereopticon lecture on "Japan" will be given by the minister.

Let Sunday be an "All In" day.

A fortune awaits the inventor of a lifeboat that will float on a sea of trouble.

A total of 339 carlots of vegetables were shipped from the Santa Maria Valley during the month of October, exceeding shipments for the previous month by 152 cars. Shippers are of the opinion that the November movement will exceed even October's due to the demand for head lettuce, carrots and tomatoes for the holiday trade. The total returns to growers for vegetables shipped thus far this year from the valley has been \$1,440,452, according to figures compiled by Clarence I. Nielson, horticultural inspector for that district.

White lies are apt to leave black marks on a man's reputation.

HOWARD BURGER, Administrator of the Estate of Dicie Burger, Deceased.

BOHNETT, HILL & CAMPBELL, Attorneys for said Administrator.

Twelve or more high schools of Southern California will probably send stock and poultry judging teams to the contests held in the junior department of the Imperial Valley Mid-winter Fair at Brawley, on December 8. In the live-stock judging contest, the "A" and "B" teams, those having more than one semester's instruction in agriculture, and those with less than one semester's training, will compete in judging five classes—dairy cattle, beef cattle, hogs, sheep, and draft horses and mules.

Seven States, California, New York, Pennsylvania, Ohio, Michigan, Illinois and Texas, have more than one million automobiles, according to statistics.

Generally fair but brisk weather, with a bright and sunny Yuletide, is predicted for the month of December by Father J. D. Ricard, University of Santa Clara weather prophet.

Deals for the purchase of rights of way for the Stockton deep water canal, in which the State is interested by virtue of a \$419,000 legislative appropriation, are expected to be closed in the near future, Alexander R. Heron, director of the department of finance, reports. The city of Stockton is now obtaining options on the property needed, and Heron has been informed these have been obtained on all save one piece. The State has the money available and will close on the options just as soon as the formal contracts can be drafted and presented. The channel will connect Stockton with deep water where the San Joaquin river flows into the Straits of Carquinez.

Illumination of the San Francisco-Los Angeles airway by erection of 30 beacons about sixteen miles apart is provided for by contracts let last week subject to approval by the Federal government. A. C. Rice of Los Angeles was the low bidder, offering to meet specifications for about \$38,000. Towers fifty feet high will support the beacons, Harry Rhodes, superintendent of lighthouses, announced. These beacon of powerful range and operating on a 10-second flash, will be run automatically in districts where electric power is available. Where it is not a regular lighthouse station will be maintained with a lighthouse keeper in charge.

California motorists driving in Washington will soon see familiar colors on road signs in that state. The Automobile Club of Washington announces that its highway warning markers will hereafter conform to federal color standards with yellow-diamond road sign system of the California State Automobile Association. This color combination has been adjudged by government officials as most effective.

Bids have been asked for the construction of the Animal Science building at the branch of the college of agriculture, University of California, at Davis. The Legislature last winter appropriated \$300,000 for this structure, which, according to the plans submitted to the regents, will be the most modern and completely equipped building of its kind in the United States.

M. B. Pratt, State forester, last week promised Christmas trees and red berry cutters and merchants a "rousing reception" when they take to the field within the next two weeks.

In search of wares for the holiday trade unless they adhere strictly to the law. Warnings have been sent to all forest rangers and wardens to strictly enforce the statute enacted by the last Legislature requiring written consent of land owners before berries or trees are cut on private property.

Even in the "fatherland" they invariably speak the "mother tongue."

With the completion last week of improvements costing over \$300,000 at the Union Ice and Cold Storage Company plant at Stockton, Stockton will become the center for more than 95 per cent of the potatoes and 75 per cent of the onions grown in the San Joaquin and Sacramento valleys and the San Francisco Bay region.

The ranchers of the Citrus Heights district, near Roseville, Placer county, are starting to harvest their ripe olive crop this week. For the last two weeks the farmers have been picking green olives which are used for pickling purposes. With the close of the olive season in thirty days the citrus fruit crop will alone remain to be harvested. On the whole all the crops have been good this season in the district.

Plans are being rapidly completed for the Glenn County Winter Fair, to be held at Orland December 8, 9 and 10. Citrus, fig and olive exhibits will be particularly featured. An entertainment program also is being arranged. This will include boxing, dancing and a fashion show.

Cotton ginnings in Imperial Valley during the past week amounted to 2663 bales, according to figures made public last week by ginneries. The greater part of the cotton was produced in Lower California, the production of the five gins in American Imperial Valley being only 130 bales. Totals to date in the Calexico area are 18,214 bales, in Mexican Imperial Valley and 2583 on the American side of the line.

Weather conditions have prevented the picking of cotton and only 415 bales have been ginned out of an estimate of 1100 for the entire season in Merced county. Though only 2700 acres were planted to cotton in Merced county this year, the general crop storage over the country has made prices good and cotton growers in this section appear well satisfied. Picking in Merced county will continue for an indefinite time.

An experimental twenty acres of figs, olives and persimmons will be set out this spring at the University of California citrus experiment station at Riverside, according to Dr. H. J. Webber, director. A demand for experimental work in these fruits has caused this decision said Webber. There will also be an extension in plantings of lemons and oranges in the root-stock experiments that were inaugurated last year, he said. Experiments on root stock have been conducted because of the apparent fact that sour stock for budding purposes may not be as desirable as when the industry was in its infancy.

The 1927-28 citrus fruit season for the Redlands district opened officially on November 1 by the calendar, but the first car of navels was shipped last week and that is always the real opening of the season. C. E. Perry, the manager of the house, says that the fruit was the finest early fruit ever packed in his house, of perfect color and the tests showed that it ran better than 10 to 1 sugar, which is 2 points above the test. The packing of the first car opens a season which will see probably more than 5000 cars packed and shipped from the Redlands district. Prices are expected to be good and it is thought that this amount of fruit will probably return close to \$10,000,000 to Redlands and the growers get a big part of it.

More than a score of San Fernando Valley chicken-hatchery men will attend the State baby-chick conference set for December 8, 9, and 10, next, at San Jose. Last year the large gathering was conducted in the Van Nuys High School with several hundred visitors attending. Every angle of the hatching business is brought out in the various department sessions of the conference. This year the program will contain a half-dozen lecturers, all leading poultry experts in and out of the State.

SARAH MAUDE MARSTON, Executrix of the last Will and Testament of Abner Paul Marston, etc., Deceased.

BOHNETT, HILL & CAMPBELL, Attorneys for said Executrix.

SUMMONS

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF SANTA CLARA.

HERMAN HORTON KOOSER
Plaintiff vs.

CORA E. GILLESPIE and CORA E. GILLESPIE as Sole Trustee of T. J. GILLESPIE PLANNING MILL CO., a defunct corporation, also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

THE PEOPLE OF THE STATE OF CALIFORNIA send greeting to CORA E. GILLESPIE and CORA E. GILLESPIE as Sole Trustee of T. J. GILLESPIE PLANNING MILL CO., a defunct corporation, also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the Complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY DIRECTED to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara within ten days after service on you of this Summons, if served within this County or within thirty days if served elsewhere.

The object of the above entitled action is to obtain a judgement and decree of said court that the plaintiff, Herman Horton Kooser, is the owner in fee of all that certain real property Situate in the City of San Jose, County of Santa Clara, State of California, Bounded and described as follows, to wit:

BEGINNING at a point on the Southerly line of San Carlos Street distant thereon Eighty (80) feet Easterly from the common corner of Lots 69 and 70 of the Subdivision of the Los Coches Rancho on said Southerly line of San Carlos Street; thence Southerly on a line at right angles to said Southerly line of San Carlos Street, being the Easterly line of the property conveyed by the T. J. Gillespie Planning Mill Company, a corporation, to I. B. Knowles by Deed dated July 25, 1892, and recorded July 26, 1892 in Liber 150 of Deeds, page 324, to its intersection with the Northwesterly line of the lands of the South Pacific Coast Railroad Company as described in the Deed to said Railroad Company recorded in Liber 40 of Deeds, page 624, records of said County of Santa Clara; thence Northwesterly along the Northwesterly line of the lands of said Railroad Company to its intersection with said Southerly line of San Carlos Street; thence Westerly along said Southerly line of San Carlos Street Two Hundred forty-five and 8-10 (245.8) feet, more or less, to the point of beginning, being a triangular portion of Lot 70 of the Subdivision of the Los Coches Rancho as shown on a Map thereof of record in the office of the County Recorder of said County of Santa Clara in A of Maps, page 47, records of said County.

And also to obtain the further judgment and decree of said court that all adverse claims made by you or either of you are wholly without merit and absolutely void; that plaintiff is the owner in fee of said property as above set forth, and that you and each of you be forever barred and restrained from claiming any or asserting any claims of any nature relating to said property, or any part thereof adverse to the plaintiff.

AND YOU ARE HEREBY NOTIFIED that unless you so appear and answer as above required, the said plaintiff will apply to the Court for the relief demanded in said complaint.

Given under my hand and seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 17th day of August, A. D. 1927.

HENRY A. PFISTER, Clerk.
By B. I. McCARTY,
(Seal) Deputy Clerk.
BOHNETT, HILL & CAMPBELL,
Attorney for said Plaintiff.

Approximately 100 cars were required to carry the 1600-ton crop of walnuts away from the plant of the Chino Walnut Growers' Association, as the season closed at Chino last week. There are still a few tons of nuts in the plant ready for shipping. Although the entire walnut crop was fine this season, the diamond and emerald brands were unusually good, according to L. T. White, secretary-manager of the association.

Blossoming of cotton plants at the present time on several ranches in the vicinity of Corcoran, Kern county is reported, just as reports come of an apricot tree being in full blossom near Hanford, in the northern part of Kern county. These freaks of nature are no doubt caused by the unusually warm weather and entire lack of frost which has prevailed this fall to date.

The price of liberty is eternal vigilance—and it is always payable in advance.

SUMMONS
35378
In the Superior Court of the State of California, in and for the County of Santa Clara.

HARRY ZONES, Plaintiff, vs STELLA ZONES, Defendant.

Action brought in the Superior Court of the State of California in and for the County of Santa Clara, and the Complaint filed in the office of the Clerk of said County of Santa Clara.

The People of the State of California send greetings to STELLA ZONES, Defendant.

You are hereby directed to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this Summons, if served within this County, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the Complaint as arising upon contract, or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 4th day of November A. D., 1927.

Here's new life, new color for your living room

This lamp really lights a room

The money you spend for one of these lamps does more to improve a room than the same money spent for other furnishings.

For the abundance of soft colorful light makes an "interior" seem lovelier. It's just like redecorating the whole room.

These floor and table lamps are

different from any other lamp. There is a reflector under the silk shade that diffuses or scatters the light. This is the new principle of design that combines beauty with good lighting and eliminates harmful gloom and glare. Such lighting is kind to your family's eyes.

The lamps have a base finished in silver or gold and there is a selection of four silk shades. You can see them at our office.
